PROFESSIONAL SUMMARY

AI & Data Science graduate with practical experience in Python, Django, DRF, React.js, and SQL. Knowledge of AI, Machine Learning, and Deep Learning. Experienced in developing LMS and institutional ERP applications. Skilled in full-stack development, database management, and REST API integration. Seeking an entry-level Full Stack Developer role.

PROFESSIONAL EXPERIENCE

Full Stack Intern, Valari Technologies .

Apr 2026– Present | Vriddhachalam

- Contributed to full-stack web application development using React.js, Python, Django, Django REST Framework, and SQL.
- Developed responsive frontend components, integrated backend services and REST APIs, and worked on database-driven application features and debugging.

A Web development Intern, Codebind Technologies.

July 2024– Aug2024 | Trichy

- Developed a Business Management System using JavaScript, PHP, MySQL, HTML, and CSS, implementing database-driven business workflows and core management functionalities.
- Gained hands-on experience in website hosting, debugging, database integration, client-server architecture, teamwork, and real-time project development.

SKILLS

- Programming Languages:** Python, SQL, JavaScript, TypeScript, C, C++
- Frontend:**HTML, CSS, JavaScript, TypeScript, React.js, Tailwind CSS, Bootstrap
- Backend:** Django, Django REST Framework (DRF), FastAPI
- Database:** MySQL, MongoDB, Database Design, Query Optimization
- Data Science & ML:**NumPy, Pandas, Scikit-learn, TensorFlow, Matplotlib
- Tools & Platforms:** Jupyter Notebook, Git, GitHub, VS Code, Oracle Cloud

PROJECTS

ERP Management System — Institutional Project

July 2026

- Developed a centralized ERP system for an educational institution using Python, Django, MySQL, MongoDB, HTML, CSS, and JavaScript to manage student and administrative workflows.
- Implemented modules for student records, admissions, attendance, and staff operations, with database integration and role-based functionality.

Lingua Lab – Learning Management System

Apr 2026

- Developed a full-stack Learning Management System using React.js, Django, MySQL, and Tailwind CSS, designed to support interactive language learning and structured academic workflows.
- Implemented student, teacher, and administrator workflows with responsive UI components, backend integration, and database-driven functionality.

An AI-Automated Diagnosis System for Pneumonia Xception Using CNN

Dec 2025

- Developed a CNN-based deep learning model to detect pneumonia from chest X-ray images using image preprocessing and classification techniques.
- Implemented and compared transfer learning models including Xception, MobileNetV2, ResNet, DenseNet, and VGGNet, evaluating performance using recall and F1-score.

EDUCATION

B.Tech(Artificial intelligence and Data science) ,
Dhanalakshmi Srinivasan Engineering College.

Sep 2022– Apr 2026 | Perambalur

- CGPA: 9.0

CERTIFICATES

- ICT Academy – Azure AI Certification
- AWS Workshop – Hands on experience with cloud computing and Data science
- Nptel – Human Computer Interaction Certification
